WINTER HITTING CLINIC

The Winter Hitting Clinic will cover all fundamentals of hitting over a 4 week period. Each player's swing will be broken down and corrected for each individual need. We believe that every player has unique, individual athletic movements that must be groomed to cater to that player's own swing. The staff at Baseball City is trained to bring out the best in each individual through hitting drills, lectures, demonstrations and following a professional curriculum that will have every player on the correct path to success!!

Baseball City has bats and helmets to use, but it is recommended to bring your own baseball equipment: fielding gloves, batting gloves, turf shoes (no cleats) and proper clothing.

Baseball City is the only place you'll need to go to satisfy all your baseball needs. We have year-round hitting, pitching and fielding in a professional facility, year-round professional instruction formulated by Bill Masse and his Professional curriculum and a fully stocked pro-shop for all your equipment needs. See why everyone is saying that Baseball City takes baseball training to a higher level!!
